

CAPABILITIES STATEMENT

People. Places. Possibilities.

Glascott Landscape Management is part of The Glascott Group – leaders in integrated commercial landscaping and horticultural services.

Since 1989, we've created and managed open space, infrastructure, and commercial environments. Our services include long-term contractual maintenance, and post construction warranty maintenance for our sister business and landscape construction specialist, Glascott Landscape & Civil.

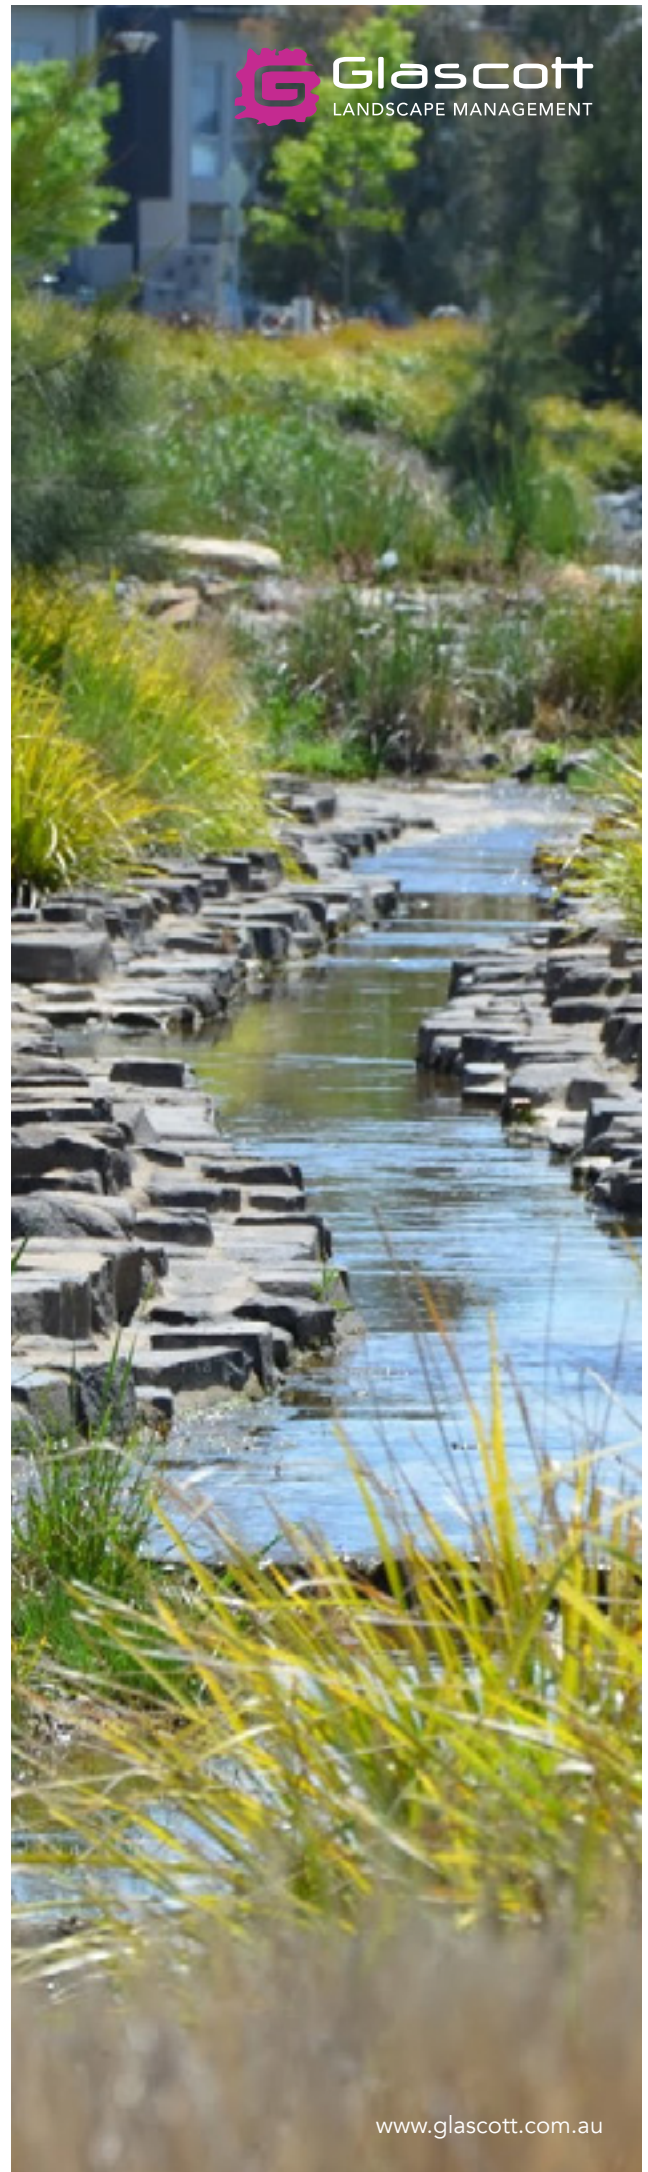

We work with our clients to develop strategies that extend the useful life of a landscape, reduce reactive spend, and address trends that contribute to deterioration and sub-optimum performance.

Our people are focussed on adopting new technology that provides value to clients, and collaborating with stakeholders to manage sites seamlessly and efficiently – resulting in safe and beautiful spaces for people to enjoy.

At Glascott Landscape Management we see ourselves as a proactive contracting partner – committed to demonstrating value and building trust with our clients in everything we do.

Our business was founded on core values that we call 'The Glascott DNA'. Our values – Integrity, Commitment and Real – are our guiding principles, they represent who we are and what we strive towards every day.

5 LENSES APPROACH

What We Do

We manage large-scale infrastructure, commercial and open space environments for governments, non-government and corporate clients.

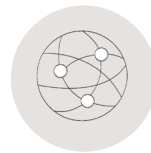

Underpinning our open space asset management is The Glascott Group's 'Five Lenses' approach: Aesthetics, Pest & Disease Management, OHSE, Asset Protection, and Sustainability.

We take a whole of life approach to management, working with our clients to improve asset performance and visual presentation. Our strategies reduce reactive spend and address trends contributing to asset deterioration and sub-optimum performance

Our team of landscape professionals; Horticulturists, Groundspeople and Arborists, manage assets using the latest technology to provide clients with transparency from the field and real time operational reporting while adding value to the life of an environment.

How We Work

Glascott Landscape Management provides total landscape management solutions.

Our approach to management comprises a broad range of specialist services. On every site we manage, our aim is to provide world-class maintenance that promotes sustainable growth through;

- **Clear communication;**
- **Transparent and regular reporting;**
- **High-end technology and innovative systems;**
- **Ongoing training and education of our people;**
- **And industry best practice in quality, sustainability and safety**

We take responsibility for our clients' assets to maximise establishment, nurture growth and maintain integrity. This involves regular communication and real time reporting to keep customers informed, managing potential risks and hazards, and proactive preventative maintenance as needed.

Our high impact, low footprint service means we undertake our work in a manner that has the lowest impact to the environment, our customers and communities.

We are committed to the ongoing improvement of our services. Regular training and education means Glascott staff have the know-how and confidence to deliver services effectively. Our managers are experts in understanding each site's unique requirements, then adopting efficiencies and methodologies to maximise service value.

We work in collaboration with customers to ensure long-term success of their environment.

Health, Safety, Environment & Quality

We operate an Integrated Health, Safety, Environment and Quality Management System. Our IMS provides the framework for the policies, procedures and processes that enable us to operate a successful and responsible business.

The wellbeing of people - our staff, clients, contractors and the general public - is paramount to the work we do. We are Federal Safety Commissioner (FSC) accredited and ISO certified, operating our work sites in accordance with the highest standard of safety in Australia.

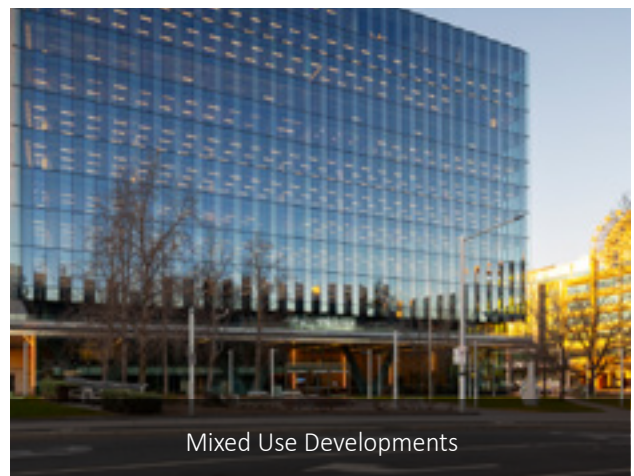

Glascott Landscape Management provides a safe, healthy and environmentally friendly workplace and we strive towards the continual improvement of our services through training and education.

We're passionate about the environment and committed to the safe and efficient management of our work.

Our aim is to develop long-term relationships with clients, working in collaboration with stakeholders and to ensure optimal outcomes.
